Post-Graduation Activities Report for the Class of 2013

The Bloomsburg University Career Development Center (CDC) produces an annual report of graduates earning a bachelor's degree to determine their status in the year following graduation. Information was gathered via online survey, phone, email, social media, and in person. Faculty, staff and families also played an integral role in obtaining information, resulting in an 83% response rate from graduates of the Class of 2013. Our graduates continued to do well and we are pleased to report 89.5% are permanently employed or continuing their education.

The CDC provides numerous opportunities for students to explore career options and to develop the skills necessary to achieve their career goals and pursue meaningful life-work. We present and facilitate discussion in academic classes, conduct workshops, meet one-on-one with students and coordinate career and job fairs, while our on-campus recruitment program connects graduating seniors with potential employers in formal interviews. In addition, the CDC website includes links to many resources useful in the career decision-making process. For graduating seniors and alumni, we post career opportunities online at the College Central Network (CCN), a cooperative job posting and career management site shared by all 14 PA State System of Higher Education universities. We are proud to offer these programs and services that contribute positively to the academic mission of Bloomsburg University.

We sincerely thank you for your continued support.

Chris Keller
Christopher Keller
Director of Career Development
Bloomsburg University
400 East 2nd Street
Bloomsburg, Pa 17815
Highlights of the Class of 2013

The Career Development Center conducts an annual follow-up survey of Bloomsburg University graduates to determine post-graduation status. This survey group includes December 2012, May and August 2013 graduates.

- **1649** students graduated with a bachelor’s degree from Bloomsburg University in December 2012, May and August 2013
- **1376** students or **83%** provided placement information
- A total of **1220** graduates or **89.5%** are considered “placed,” i.e., permanently employed or continuing their education
- **143** graduates (11%) are currently seeking employment
- **113** graduates (8%) are employed in permanent teaching positions
- In the College of Education, **32** (76%) of those seeking are substitute teaching
- **326** graduates (24%) are continuing their education full-time
- The average salary reported was **$47,075** (42 or 5% reported salaries)

---

Post-Graduation Status

89.5% are considered placed
This percentage includes graduates permanently employed, serving in the military, and continuing their education.

Out of 1649 graduates, 1376 provided information about their post-graduation activities, with 13 indicating they were not available for employment.

---

Employment by State
As reported by 787 or 88% of the graduates permanently employed.

---

Salary Information
42 (approx. 5%) of the graduates employed permanently provided salary information. The average salary was $47,075.
