5. Action Items
   A. Assessment Data Submission Deadline
   Mark Usry moved to accept the assessment data submission date as the Friday of the week grades are due each semester; seconded by Mark Usry.
Patricia Beyer and Sheila Dove-Jones explained the GEC discussed this at the GEC retreat in July. General Education data must be reported during the time frame faculty are working. The latest time would be the Friday of the week grades are due.

**Motion to approve the deadline submission as the Friday of the week grades are due passed by voice vote.**

Dr. Jones asked the council for their opinion on whether or not to collect assessment data in the aggregate for the winter session.

Mark Usry moved to gather assessment data on General Education courses offered in the winter session; seconded by Chris Donahue.

**Motion to gather assessment data on General Education courses offered in the winter session passed by voice vote.**

**B. GEC Guidelines – First Reading**

Council members reviewed the Guidelines and made updates as needed to page 2, Document P, in Box 3. Strike the words number 13 and replace the word Course with Change, and to update the membership list. It was concluded the Guidelines would be reviewed and updated annually and any time the General Education Policy is revised.

Council members reviewed the proposed revisions as recommended at the July GEC retreat. Mindi Miller moved to revise Goal #9 to read and/or; seconded by Kevin Williams.

**6. Open Forum**

Sheila Dove-Jones reported the English Department has requested to pilot the review of their data. They offer 17 English courses each with eight or nine SLOs. The English Department has requested permission to review five elements around Communication in the Fall and review the remaining elements in the Spring. Data will continue to be collected on every element every semester.

Sheila Dove-Jones moved to allow the English Department to pilot the review of data; seconded by Sharon Solloway.

**Motion to allow the English Department to pilot the data review on their courses passed by voice vote.**

Chris Donahue requested a discussion on CLEs at the next GEC meeting.

Kevin Williams inquired what percent of last year’s freshmen completed their foreign language requirement. Sheila Dove-Jones expressed a concern in students being hand placed into a language
course. Data is skewed by the fact that an equal number of students are hand placed into courses as those who have taken the language placement test.

The meeting adjourned at 4:00 PM by consensus.

   Ralph Feather recommended an amendment to the minutes.
   *Motion to approve the minutes with the amendment passed by voice vote.*

3. **Chair Remarks**
   Ralph Feather reported the BUCC moved not to forward the revised BUCC Bylaws for the Fall election due to some needed language revisions. Ralph will continue to attend BUCC meetings. The revised Omnibus form will be posted and distributed soon.

4. **GEC Guidelines – Second Reading**
   Linda Neyer moved to amend the GEC Guidelines to include the VALUE Rubrics table which was proposed to be struck from PRP 3612 to the GEC Guidelines. *Motion failed for lack of second.*
   Mark Usry moved to approve the Guidelines as amended; seconded by Chris Donahue.
   *Motion to approve the Guidelines as amended passed by voice vote.*

5. **PRP 3612 – Second Reading**
   Ralph Feather requested a grammatical change. Members discussed the meaning of “successfully complete” as it relates to the foundational courses. Individuals have their own opinion, however, it was concluded to follow University practice as successfully complete translates into a University passing grade.

Sheila Dove-Jones moved to include the Global Learning rubric to the list of VALUE rubrics on the General Education/MyCore websites; seconded by Mark Usry.

**Motion to include the Global Learning rubric and strike the referenced number of rubrics from the website passed by voice vote.**

6. **CLE Guidelines**
   Chris Donahue presented a rough draft of guidelines for CLEs as well as a draft proposal. Members recalled a previous version prepared by a subcommittee last academic year and discussed with no finalization. Members discussed the reasoning for the lack of CLE proposals. One observation by Linda Neyer is the absence of an assessment committee within some units on campus. Those who have done assessment indicated it is not time consuming nor difficult. Ralph Feather requested Jill send the previous draft form of the CLE guidelines for review by council members and discussion at a future GEC meeting.

7. **Open Forum**
   Molly Marnella requested clarification on the Office of Planning and Assessment’s language placement data that was distributed via email after our last meeting. Sheila Dove-Jones provided the answers. Discussion continued on the topic of encouraging students to take the language placement test. Sheila Dove-Jones reported the academic advisement module revealed that freshmen reported academic advisement was a major issue. As many students who saw their assigned advisor also went to other students, parents, or staff. Seniors indicated the same just not at the same level as freshmen.

The meeting adjourned at 3:45 PM by consensus.

**Minutes – General Education Council, October 7, 2013**

An email was received earlier in the day indicating Dr. Long would not be available to present the proposal.
Due to no representation, Kevin Williams moved to table the CGA President CLE proposal; seconded by Mark Usry.
**The motion to Table the proposal passed by show of hands.**

B. Languages and Cultures

i. Languages and Cultures Assistantship (Draft)

Chris Donahue presented the revised proposal which he adapted the previously prepared CLE guidelines prepared by the subcommittee comprised of Linda Neyer, Gretchen Osterman, John Riley, and Ralph Feather.

Trish Beyer informed the council there is no mechanism in place to grant variable credits to CLEs. Trish will meet with the Registrar for clarity and report her findings to the Council. Sheila Dove-Jones questioned any differences in the assessment between one credit versus two credits. Chris Donahue replied the assessment would be the same. The variable credit offering stems from the number of hours completed.

Trish reported to the Council she will be meeting with the Registrar, Joseph Kissell, and Linda Hock regarding the use of the CLE prefix.

Sheila Dove-Jones stated the word Assistantship refers to Graduate Assistantship and requested a substitute word. The Council requested removing the reference to a practicum/internship in #9 of the Master Course Syllabus. The concern is to separate the CLE from a class (internship/practicum) currently offered. Sheila Dove-Jones suggested replacing with outreach experiences. Trish Beyer recommended reporting this to be included in the Community Service Indicator. The Council suggested Chris revise the proposal using the recommendations above and bring it back for consideration.

4. **Action Items / Retreat**

A. Ralph Feather, Chair, will communicate assessment data due dates to the University Community.

B. Sheila Dove-Jones asked the Council if they want targets identified. If determined to do so, a field will be added in Qualtrics. Data will be more useful if targets are identified. Mark Usry suggested training be offered on how to use VALUE rubrics and what levels are acceptable. Discussion continued on the perception of the meaningless of the data by faculty.

Chris Donahue moved the GEC require targets in general education proposals henceforth and that the GEC request from all who have submitted general education courses to this point supply targets; seconded by Mark Usry.

Mark Usry reiterated the need for professional development/training in assisting with targets. Trish Beyer recommended the target performance level be included in the SLO table.

Chris Donahue withdrew his motion, accepted by Mark Usry.

Chris Donahue moved the GEC require the target performance level be included in the SLO table in addition to the element of the Master Course Syllabus; seconded by Mark Usry.

Linda Neyer added a friendly amendment to revise the word require to recommend. Ralph Feather recommended a revised motion to read: In order to make data more meaningful, the GEC is recommending, from this point forward, the target performance level be included in the SLO table of the Master Course Syllabus.
Chris Donahue accepted the two friendly amendments. Mark Usry asked what is requested or needed by Middle States. Trish Beyer replied we need to have some sense of what people are aiming for in their class.

**Motion to revise the GEC Guidelines to read:** *In order to make data more meaningful, the GEC is recommending, from this point forward, the target performance level be included in the SLO table of the Master Course Syllabus*, passed by voice vote with 1 opposition and 1 abstention. Chris Donahue moved in order to make data gathered so far more meaningful, the departments submit target performance levels to the Office of Planning and Assessment for general education courses previously approved; seconded by Linda Neyer.

**Motion to request target performance levels for previously approved general education courses be reported to the Office of Planning and Assessment passed by voice vote with 1 opposition and 1 abstention.**

It was the sense of the Council that this information not be communicated through email. Trish will inform departments personally.

C. The frequency to collect and report data to the Office of Planning and Assessment is currently in a two-year pilot. Data is currently reported after each course offering. Council members discussed the option of random sampling. Ralph Feather asked the representative for the Office of Planning and Assessment to bring forth to the Council some suggestions on the frequency of data reporting and the option of random sampling.

D. CLE Development

Trish Beyer is working with Athletics on a proposal to offer Varsity Athletics as a 1-credit course (not CLE); she is also working with Kristin Austin and Ted Roggenbuck on a CLE development for the OWLS, and has a meeting scheduled with Dr. Somerville to learn of and offer any support needed in creating a CLE proposal. Trish is recommending a GEC member support Student Life members in assisting them with CLE proposals.

E. GEC Working Group

Group members, Chris Donahue, Kevin Williams and Sharon Solloway with assistance from Blair Staley drafted language regarding alternative pathways for students with IEPs and forwarded to Bob Wislock. They are awaiting response from Dr. Wislock.

5. **Chair Remarks**

Ralph Feather introduced student representative, William Lenz, and welcomed him to the committee. Introductions were made.

Ralph Feather requested the language approved today regarding the target performance level be integrated into the GEC Guidelines and brought forward to the next GEC meeting for discussion/approval.

6. **Open Forum**

Kevin Williams met with an honors student advisee who is currently in a course not included on the approved general education point list but was told by the faculty teaching the course the group of students will get together and prepare a proposal to get it approved. It was the sense of the Council the student may have been confused. Trish Beyer reported Honors courses are currently being developed for general education approval. If the honors section of a regular course approved for general education points has not been approved yet, assessment is still being conducted and
students may, through the petition, receive GEPs for the course. If it is a course that is on the books that has not been given GEPs, and is being taught as an honors section, the advisor may not use the petition to get GEPs.

Linda Neyer raised some questions she had with the CGA President CLE proposal. The Council advised Ms. Neyer to raise her questions during the review.

Mark Usry offered an official apology for a comment made at the last meeting regarding additional help needed and not being done on the returning summer freshmen. His intent was not that work or assistance is not being done.

The meeting adjourned at 3:46 PM by consensus.

Minutes – General Education Council, October 21, 2013

Ralph Feather called the meeting to order at 2:00 PM on Monday, October 21, 2013, in the Schweiker Exhibit Room of the Andruss Library.

1. **Approval of the Agenda of October 21, 2013**
   Mindi Miller moved to approve the Agenda; seconded by Gretchen Osterman.
   **Motion to approve the Agenda passed by voice vote.**

2. **Approval of Minutes of October 7, 2013**
   Kevin Williams moved to approve the Minutes; seconded by Molly Marnella.
   **Motion to approve the minutes passed by voice vote.**

   New members to the committee introduced themselves: Shayne Jaynes, faculty in the Sociology, Social Work and Criminal Justice Department is sitting in for Chris Podeschi who has a class conflict in the Fall, Jack King, faculty in the Audiology Department and Conrad Quintyn, Chairperson and faculty in the Anthropology Department.

3. **Course Proposals**
   A. **Student Life**
      i. **CGA President CLE**
         Gretchen Osterman moved to recommend the CGA President CLE to the BUCC for 1 GEP toward Goal 1 Communication and 1 GEP toward Goal 10 Citizenship; seconded by Chris Donahue.
         Jeff Long presented the proposal. The CGA President is elected by the student body for a one-year term. The responsibilities include overseeing a foundation, a budget, the Kehr Union Building and the Student Recreation Center, and Honeysuckle student apartments. The President makes presentations to the Town of Bloomsburg, meets regularly with the University President and addresses concerns of the student body.
         Sheila Dove-Jones moved to check the Undergraduate box under Box 2: Level of Action on the Omnibus Form; seconded by Mindi Miller.
         **Motion to check the Undergraduate box on the Omnibus Form passed unanimously by voice vote.**
Molly Marnella questioned the choice of the course number. Trish Beyer explained the number 301 was chosen as an equivalent to an upper level course. The prefix attached to CLEs is currently being discussed with the Registrar.

Members requested additional revisions to Q1, Q2, Q3, update the effective semester, begin the catalog description with a verb, revise the SLOs, add a justification paragraph in #11, justify the Communication GEP in #10, and attach the Citizenship Rubric.

Chris Donahue moved to Table the proposal; seconded by Mark Law. **Motion to Table the proposal passed by voice vote.**

Council members thanked Dr. Long for bringing forward the first CLE.

B. Chemistry

i. CHEM 105 Intro to Forensic Science

Kevin Williams moved to recommend CHEM 105 Introduction to Forensic Science to the BUCC for 3 GEPs toward Goal 5 Natural Sciences; seconded by Chris Donahue.

Toni Trumbo-Bell presented the proposal stating this is a general course not required by any major.

Members requested removing the words “be able to” in #11, match section titles to align with PRP 3233, add the sentence to #14 “data to be reported to the Office of Planning and Assessment as requested”, and to include the target performance level in #14. **Motion to recommend CHEM 105 with revisions to the BUCC for 3 GEPs toward Goal 3 Natural Sciences passed by voice vote.**

ii. CHEM 281 Introduction to Chemical Literature

Mindi Miller moved to recommend CHEM 281 to the BUCC for 1 GEP toward Goal 2 Information Literacy; seconded by Sheila Dove-Jones.

Toni Trumbo-Bell presented the proposal.

Members requested striking the words “be able to” in #11, match section titles to align with PRP 3233, add the sentence to #14 “data to be reported to the Office of Planning and Assessment as requested”, and to include the target performance level in #14. **Motion to recommend CHEM 281 with revisions to the BUCC for 1 GEP toward Goal 2 Information Literacy passed by voice vote.**

4. Program-to-Program Transfer

Trish Beyer presented a Power Point showing the BOG policy on Transfer Articulation Agreement. Students who fall under the Transfer Articulation Agreement will transfer 30 general education credits to BU. The BOG policy allows us to require up to an additional 10 general education points that may be specific to a degree from Bloomsburg University.

Members discussed the goals considered unique to Bloomsburg University.

Chris Donahue moved students entering BU via the Articulation Agreement are required to satisfy the Citizenship Goal, Information Literacy Goal, Cultures and Diversity, and the remaining GEPs left to their choice; seconded by Mindi Miller.

Members discussed the Community College course framework focusing on the areas not represented in our general education goals.

Chris Donahue amended his motion to add Healthy Living to the list of the additional 10 GEPs, approved by Mindi Miller. **Motion to recommend a requirement of an additional 10 GEPs from the following Goals: Goal 10 Citizenship, Goal 2 Information Literacy, Goal 4 Cultures and Diversity and Goal 9 Healthy Living passed by voice vote.**
and any remaining GEPs to be satisfied by the Goal of the student’s choice to the BUCC passed unanimously by voice vote.

5. Second Language GEPs for non-English speaking students
   Trish Beyer indicated there are a number of freshmen who are not first language English speakers. International students take a TOEFL exam; American Citizens who speak a language other than English as their first language, and who also speak English, are not currently tested for competency and therefore, have no way to satisfy Goal 8.
   Members discussed how to handle these situations. Chris Donahue suggested ENGLISH 101 be submitted for approval of Goal 8 for students whose first language is not English. We need some type of mechanism in place for students to demonstrate this competency that does not necessarily need to be a course or a test. Gretchen Osterman suggested a CLE to satisfy those individuals.
   Kevin Williams suggested a series of written documents in a foreign language for which we would have an English version and request the student to interpret it in writing. Trish Beyer suggested the GEC recommend a couple of options for the BUCCs consideration. Ralph Feather asked for volunteers to sit on a subcommittee to draft options for BUCCs consideration. Jack King, Conrad Quintyn, and Ralph Feather volunteered. They will draft some options and report back to the GEC.
   Sheila Dove-Jones suggested someone in the Language Department be contacted for input.

6. GEC Guidelines
   Ralph Feather stated the Guidelines have not been distributed yet. We will revisit them one more time after the BUCC votes on the proposed changes to PRP 3612.

7. Chair Remarks
   Ralph Feather received an email from the CGA with two concerns:
   1. Computer Science classes should count as a Group C General Education requirement and the equivalent in the new general education requirements. Members responded this item needs to be addressed in that department.
   2. Students completing the requirements of two majors feel that if the requirements of general education in both degrees can be completed in 120 credits they don’t feel students should be required to complete an additional 30 credits to receive a second degree. Members responded this is a BOG policy.
   Ralph Feather will reply to the CGA President.
   Ralph indicated the BUCC is concerned with the writing of Goal 9 adding “and/or”.

8. Open Forum
   Ralph Feather learned from a recent webinar the phrase “students will be able to” should be written as “students will”. Members discussed both sides. No motion was made to change this.

   Chris Donahue asked if there is anything in place for students to track GEPs. Members replied that information is available to them in ISIS.

   Mindi Miller thanked Trish for her freshmen presentations. Students who have attended are well informed making advisement smoother.

   Sheila Dove-Jones reported the decision for reporting data for the Winter and Summer sessions be submitted on the same day as grades by 5PM. If someone cannot meet that deadline, please inform the Office of Planning and Assessment. This schedule was recommended by the Office of Human
Resources based on HR policies, CBA policies, and the term of faculty contracts. The Fall and Spring semester data will have a Friday after grades are due deadline.

Kevin Williams requested the student’s placement exams be available in ISIS. Trish Beyer replied that is being resolved.

The meeting adjourned at 4:11 PM by motion of Sharon Solloway and seconded by Gretchen Osterman.

Minutes – General Education Council, November 4, 2013

Ralph Feather called the meeting to order at 2:00 PM on Monday, November 4, 2013, in the Schweiker Exhibit Room of the Andruss Library.

1. Approval of the Agenda of November 4, 2013

Conrad Quintyn moved to approve the Agenda; seconded by Mark Usry. Ralph Feather requested moving item #4, Language Placement Test ISIS Documentation, to item #3 due to the speaker’s schedule.

Motion to approve the Agenda as modified passed by voice vote with two abstentions.

2. Approval of Minutes of October 21, 2013

Linda Neyer moved to approve the Minutes; seconded by Shane Jaynes. Revisions were made.

Motion to approve the minutes as amended passed by voice vote.

3. Language Placement Test ISIS Documentation

Molly Marnella displayed an ISIS record to show how the placement test is recorded. If the student passed the placement exam and satisfied Goal 8 requirement, it will be displayed as Courses: 1 required, 1 taken, 0 needed. The test taken will be displayed as the name of the language and 99; for example, Spanish 99. If a student takes the placement test but does not reach the level to satisfy Goal 8, nothing is recorded on ISIS. The Office of Planning and Assessment will manually enter the data stating the student took the placement test and will need to take a language course or courses; for example course 101 or 102. Dr. Blake has requested the Language Department develop three additional language placement tests in the areas of Russian, Italian and Arabic.

4. Course Proposals

A. Mathematics, Computer Science & Statistics
   i. COMPSCI 320 Computer Ethics, Social Impact, and Security

Sheila Dove Jones moved to recommend COMPSCI 320 to the BUCC for 1 GEP toward Goal 2 Information Literacy; seconded by Mindi Miller.

Curt Jones presented the proposal.

Members requested revisions to Q2 justifying the GEP, add “Document R” to the top of the Master Course Syllabus, tie the request for Information Literacy in the course content, modify the SLOs to justify Goal 2, suggested SLO #1 be rewritten and add another SLO. Ethical Reasoning may not be the best Rubric. Members suggested looking at another goal that may better fit. C. Jones indicated Goal 2 falls in line with what ABET is requesting of the course.
Motion to recommend COMPSCI 320 to the BUCC for 1 GEP toward Goal 2 Information Literacy with the revisions, failed by show of hands 4 approve, 6 opposed.

B. English
   i. ENGLISH 111 Language and Social Interaction
      Linda Neyer moved to recommend ENGLISH 111 to the BUCC for 3 GEPs toward Goal 4 Cultures and Diversity; seconded by Sharon Solloway.
      Angelo Costanzo presented the proposal.
      Members requested revising the effective semester date, correct the Goal number to read Goal 4 Cultures and Diversity, remove paragraphs 2 and 3 in Q2, add the words “Master Course Syllabus” to the first page of Document R, suggested expanding the content for BUCC, remove Demonstrate the ability to and begin with the word “Analyze” in SLO #4, and reorder the rubrics to reflect the SLO table.
      Motion to recommend ENGLISH 111 to the BUCC for 3 GEPs toward Goal 4 Cultures and Diversity with the revisions passed by voice vote.

5. Chair Remarks
   Ralph Feather stated the Guidelines will be distributed after the BUCC votes on the proposed PRP 3612. The GEC will not require course proposers to include target performance levels until the Guidelines are distributed. It was the consensus of the committee to include the target performance levels in the table of #11 as moved and approved at the last meeting. This is a suggestion and not a part of the policy so it does not need “BUCCs approval.”
   Kevin Williams moved that the GEC recommend the BUCC revise the policy to include target performance levels; seconded by Mark Usry.
   Members discussed whether or not to require target performance levels rather than recommend. Sheila Dove-Jones conveyed to the committee the need to educate faculty on the meaning of benchmarks. If students do not reach a benchmark it is not indicative of an evaluation on their teaching performance. Linda Neyer stated she was against requesting target performance levels be included in the proposals at this time. If departments discover they need to change the levels, the proposal will need to go through all the committees/approval process.
   Kevin Williams withdrew his motion to recommend the BUCC revise the policy to include target performance levels; in agreement with Mark Usry.

   Ralph Feather informed the Committee two Luzerne County Community College students contacted him for advisement in anticipation of transferring to Bloomsburg University.

   Conrad Quintyn reported on the meeting of the language placement test subcommittee which met Friday, November 1st. The committee consists of Conrad Quintyn, Jack King, and Ralph Feather. The subcommittee was formed to explore options to accommodate students who speak a language of which we do not offer a language placement exam. Items discussed:

   1. Language Testing initiated by the faculty within the Languages and Cultures Department with release time to prepare the test.
   2. Chris Donahue’s draft proposal incorporating written and oral presentations, and sharing knowledge of language and culture, etc.;
   3. Engaging faculty of other nationalities to create a test;
   4. How the ESL program might work;
   5. Generating a sample test;
6. Contacted Dr. Jing Luo who recommended intermediate level TOEFL scores for second language GEP. Dr. Amarillis Hidalgo-DeJesús suggested enrolling students into a Language and Cultures 200 course. Dr. Hidalgo-DeJesús will join the committee at their next meeting on November 15th.

6. Open Forum
Mindi Miller advised the Committee she will attend the next BUCC meeting to advocate for “or” to be inserted in Goal 9 Healthy Living. She asked members to join her in support if they feel strongly about this wording.

The meeting adjourned at 3:57 PM

Minutes – General Education Council, November 18, 2013

Chris Donahue requested clarity on pass/fail criteria. Criteria needs to be included in the proposal identifying what needs to be met to pass the experience.    Joseph Kissell, Deb Pavlick and Linda Hock were present from the Registrar’s Office to discuss this topic.

   Joseph described the process of identifying GEPs and a student’s progress toward meeting the GEP requirement. GEP progress will be displayed in ISIS in the degree audit. They will not print on a student’s transcript. The exception to this is the language placement test. The Registrar’s office created an artificial course that will show up on the transcript. If a student tests out of, for example, Spanish, Spanish 099 will print on their transcript as passing a course and the GEPs satisfied for goal 8 will be viewable in the degree audit. Co-curricular Learning Experiences will be displayed on a transcript as a course and the GEPs attached to the CLE will be displayed in the degree audit. Student’s participating in CLEs that span over more than one semester will be enrolled when the requirements have been satisfied. Supervisors are to maintain the progress and contact the Registrar’s Office when the students have met the requirements to place the experience on their permanent record.

   Ralph Feather thanked the Registrar’s Office for their exceptional work.

   Trish informed the committee of the existence of a spreadsheet created by Bruce Candlish to track general education points.

5. Retreat Action Items
   A. Faculty/Department Roles and Resources to complete Assessment Process
      Sheila Dove-Jones explained this will roll out the 5-year phase cycle. Trish will prepare a draft and present to the GEC. The Union is concerned the GEC is requesting data without a policy on the collection process. Dr. Jones requested committee members to inform their colleagues the last two years were a pilot to ascertain if/how the collection of data was working. Ralph spoke with Dr. Long who will make that revision. Once done, Ralph will sign and move the proposal on to the BUCC.

5. **Guidelines for General Education Proposals**
   Ralph indicated distribution of the Guidelines has been on hold due to the pending changes recommended by the GEC and BUCC to the Provost of the GEP goals in PRP 3612.
   Linda Neyer moved to remove the Goal Table from the Guidelines and update the membership list; seconded by Sharon Solloway. Members discussed the effects of removing the Table from the Guidelines.
