Bloomsburg University is committed to equal educational and employment opportunities for all persons without regard to race, religion, gender, age, national origin, sexual orientation, disability or veteran status.
Clinical Athletic Training (M.S.)

The entry-level Masters of Science degree in Clinical Athletic Training prepares students to function as healthcare providers in the areas of injury prevention, recognition, and treatment. The program follows a competency-based approach in preparing students to think conceptually and analytically. The entry-level graduate program is open to all students who have completed a Baccalaureate degree with a recommended GPA of 3.3 in a related field and who meet the admission criteria.

The program is one of 20 offered nationally. The curriculum is designed for full-time students who will attend three semesters in the first year and three semesters in year two. A total of 51 credits is required for completion of the M.S. in Clinical Athletic Training.

The professional preparation of an entry-level athletic trainer is directed toward developing specific competencies in risk management and injury prevention, pathology of injuries and illnesses, assessment and evaluation of injuries, acute care of injury and illness, pharmacology, therapeutic modalities, therapeutic exercise, general medical conditions and disabilities, nutritional aspects of injury and illness, psychosocial intervention and referral, health care administration, and professional development.

Admission Requirements

Completed Graduate Record Exam (recommended combined total of 1000 on verbal and quantitative). Scores must be current (within last 7 years).

Completion of the following pre-requisite coursework with a grade of C or better prior to acceptance:
- Human Anatomy & Physiology I and II
- Exercise Physiology
- Kinesiology/Biomechanics
- Sport/Exercise Psychology
- Care & Prevention of Injuries

The program requires a minimum of 200 hours of direct clinical observation/experience under the guidance of a Certified Athletic Trainer. Prospective students must submit a letter of verification from the Certified Athletic Trainer at time of application.

Current First Aid and Professional Rescuer CPR certifications (including adult, child, infant CPR, and AED).

Successful completion of an interview with the program director and faculty.
