Bloomsburg University is committed to equal educational and employment opportunities for all persons without regard to race, religion, gender, age, national origin, sexual orientation, disability or veteran status.

Master of Science

Exercise Science

www.bloomu.edu/gradschool

Bloomsburg University of Pennsylvania
Exercise Science (M.S.)

Exercise Science at Bloomsburg University prepares students for research opportunities, doctoral study and employment in universities, cardiac rehabilitation, corporate fitness/wellness, sports medicine, and pediatric/geriatric fitness. Students complete courses in Exercise Science with clinical and research internships that encompass the full spectrum of health, including cardiac rehabilitation, physiological assessment, and training for optimal performance. These activities are augmented by such learning resources as library support, information technology and well-equipped exercise physiology, biomechanics, and computer laboratories.

The Thesis option for a master’s of science degree in Exercise Science prepares students for doctoral programs, medical schools, and other further education or research positions. The program also offers a non-thesis option that concentrates on practical applications of physiologic principles to exercise training; including clinical professions, health and fitness, strength and conditioning, corporate fitness and personal training.

**The program offers:**

- Hands on experience with professors of Exercise Science with diverse interests
- Potential to graduate with one or more publications
- First hand experience with grant writing
- Internships in national and international settings
- Opportunity to represent Bloomsburg University at regional, national, and international conferences
- Reasonable tuition
- Competitive graduate assistantships available

**Measuring Success**

Recent graduates from Bloomsburg University’s Exercise Science have:

- Earned full assistantships for doctoral study at:
  - Ball State University
  - University of Connecticut
  - Florida State University
  - The Pennsylvania State University
  - The University of Pennsylvania
  - The University of Pittsburgh
  - Slippery Rock University-Doctoral of Physical Therapy
  - Syracuse University
  - Virginia Tech University
  - Thomas Jefferson Medical School

- Accepted clinical, research and teaching positions at:
  - Geisinger Medical Center
  - The Johns Hopkins Cardiac Rehabilitation Center
  - The Cleveland Clinic
  - The Sensor Medics Corporation
  - Air Products Corporation
  - The U.S. Naval Academy
  - The Cincinnati Sports Research Center
