Bloomsburg University of Pennsylvania

www.bloomu.edu/gradschool

Bloomsburg University is committed to equal educational and employment opportunities for all persons without regard to race, religion, gender, age, national origin, sexual orientation, disability or veteran status.

MASTER OF SCIENCE IN Nursing
The Master of Science in Nursing (M.S.N.) is designed to assist students in acquiring the knowledge, skills, values and professional behaviors essential to beginning or advanced practitioners of professional nursing. Students in the M.S.N. program receive functional preparation in education, administration, or in integrative health. The program incorporates individualized clinical experiences into the curriculum, and students are taught by full-time, doctorally prepared faculty.

Thank you for your interest in graduate education at Bloomsburg University. We currently offer the following nursing programs:

- Clinical Nurse Specialist
  - Adult Health and Illness
  - Community Health
- Adult and Family Nurse Practitioner
- Administration with MBA option
- Post-MSN, NP or school nurse certification
- Post-CRNA, CRNP, CNM and CSN to MSN
- Nurse anesthesia program will begin Fall 2009
- The Department of Nursing also offers and RN-MSN program
- Competitive graduate assistantships

**Master of Science in Nursing Career Options**

- Adult and Family Nurse Practitioner
- Clinical Nurse Specialist in Adult Health and Illness
- Clinical Nurse Speciality in Community Health
- Nursing Administration

To accommodate adult learners, the following courses are offered online:

- Theoretical Bases for Role Development in Advanced Nursing Practice
- Epidemiology: Concepts for Advanced Nursing Practice
- Bases of Research for Advanced Nursing Practice
- Community Assessment and Planning
- Additional specialty courses are also offered online

Students may select either full-time or part-time study depending on their individual needs.

Other required nursing courses are held in the traditional format with on-campus classes. For clinical courses, attention is given to selecting sites relatively close to the students’ place of residence, as much as possible.
