Additional Information:

- The Degree Audit has been configured using requirements from the Fall 2009 forward. Students with a Requirement Term prior to Fall 2009 may use the What If report however requirements may not be consistent with current departmental standards.
- Courses process chronologically and will be pulled into the first requirement they fulfill. A course you may wish to use in one area may pull into another on the audit until additional courses are taken. At that time the audit will reconcile and courses will “move” until all requirements are fulfilled.
- Courses in the Major will all be used to fulfill Goal points if the course has been approved to fulfill a student learning outcome.
- The degree audit reports are to be used as a tool in conjunction with current departmental graduation checksheets.
