

# Doctor of Nursing Practice

## About the Program

Bloomsburg University has great success in the education of advance practice nurses with 100% pass rate on certification exams for NPs and CRNAs. The Doctor of Nursing Practice (DNP) program prepares nurse leaders to apply advanced practice skills at the highest level of clinical practice. Students will be prepared to assume a higher level of responsibility and leadership in nursing and health care, with the ultimate goal of improving health care delivery systems.

This post-MSN program for nurse practitioners, CRNAs, nurse midwives, and clinical nurse specialists, is offered as a part-time program over two years. The program is online to accommodate the working advanced practice nurse.
