Q-3: What is the purpose of ACCUPLACER?

A: The reading, writing and math results of the ACCUPLACER Placement Test will determine a student’s readiness for college level work. The results also assist BU in determining a student’s strengths, and if there are any weak areas that they need to develop. These strengthening courses are developmental in nature and earn students the quality points for their cumulative grade point average, but do not carry college credit towards graduation.

*ACCUPLACER math results determine enrollment in the appropriate courses for math and science majors.

Q-4: What is the testing period of Summer and Fall freshmen?

A: Early March to End of June.
Recommended: Summer Sessions 1 & 2 freshmen test before May, and Summer Session 3 freshmen before June, for scheduling purposes.

*However, ALL students are encouraged to test sooner, rather than later, in order for the appropriate courses to be added to their course schedule.

Q-5: What is the testing period of Spring freshmen?
A: Early November to End of January.

Q-6: If I already completed the ACCUPLACER Placement Test at another college/university, am I still required to take it at BU, or can I forward my test results to the Office of Planning & Assessment?
