Setting Up Your New BU Live@EDU Email Account

Begin by opening a web browser and navigating to http://mail.huskies.bloomu.edu. You will be redirected to a Microsoft Live login page similar to the page below (NOTE: If you were previously logged in to a different live or hotmail account, you may need to log off first, then proceed to http://mail.huskies.bloomu.edu). Enter your personal HuskyID, for example abc12345@huskies.bloomu.edu, as the Windows Live ID and enter your current HuskyID password. It is recommended that you do not check the Remember my password option unless you are on a secure password protected computer.
After signing in, you should see a screen similar to this one. This will only happen the first time you login. Enter your birth year and select your country, then click the I Accept button. (NOTE: Enter your Birth Year very carefully. If you enter the wrong year it may prevent you from accessing your email and you will have to contact the Bloomsburg University technology helpdesk at 570-389-4357 for help)
Next, you will have a few preference options for your email. There is an accessibility option in which you can enable a blind and low-vision experience. This is also where you set up your language and time zone. When ready, click on OK. If you made a mistake, all of these options can be set later by going into the Options link when you are viewing your inbox. You have completed the Live@EDU first-time signin process and your new Microsoft Live account is now set up.

Next time you log in to http://mail.huskies.bloomu.edu, you will be taken directly to your webmail.

Note you can change or reset your HuskyID password by going to http://reset.bloomu.edu/.

For more information, please go to http://www.bloomu.edu/technology/student/live.
