

# Outlook 2007 POP Instructions For Faculty and Staff

---

/\*\*Make sure Office 2007 is up to date. Visit the Microsoft Office update site at <http://officeupdate.microsoft.com> and check for updates.\*\*/

1) Go to Start>settings>Control Panel

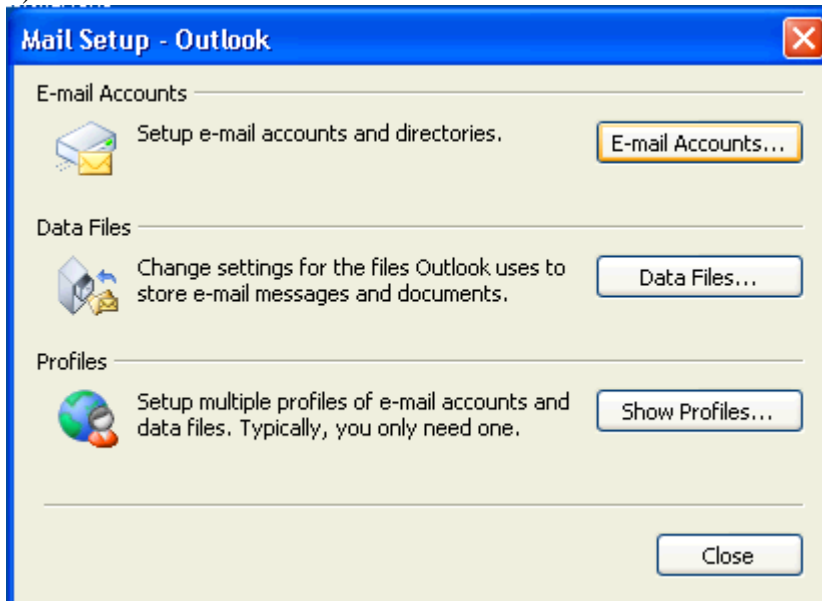

# Outlook 2007 POP Instructions For Faculty and Staff

2) Double Click on Mail.

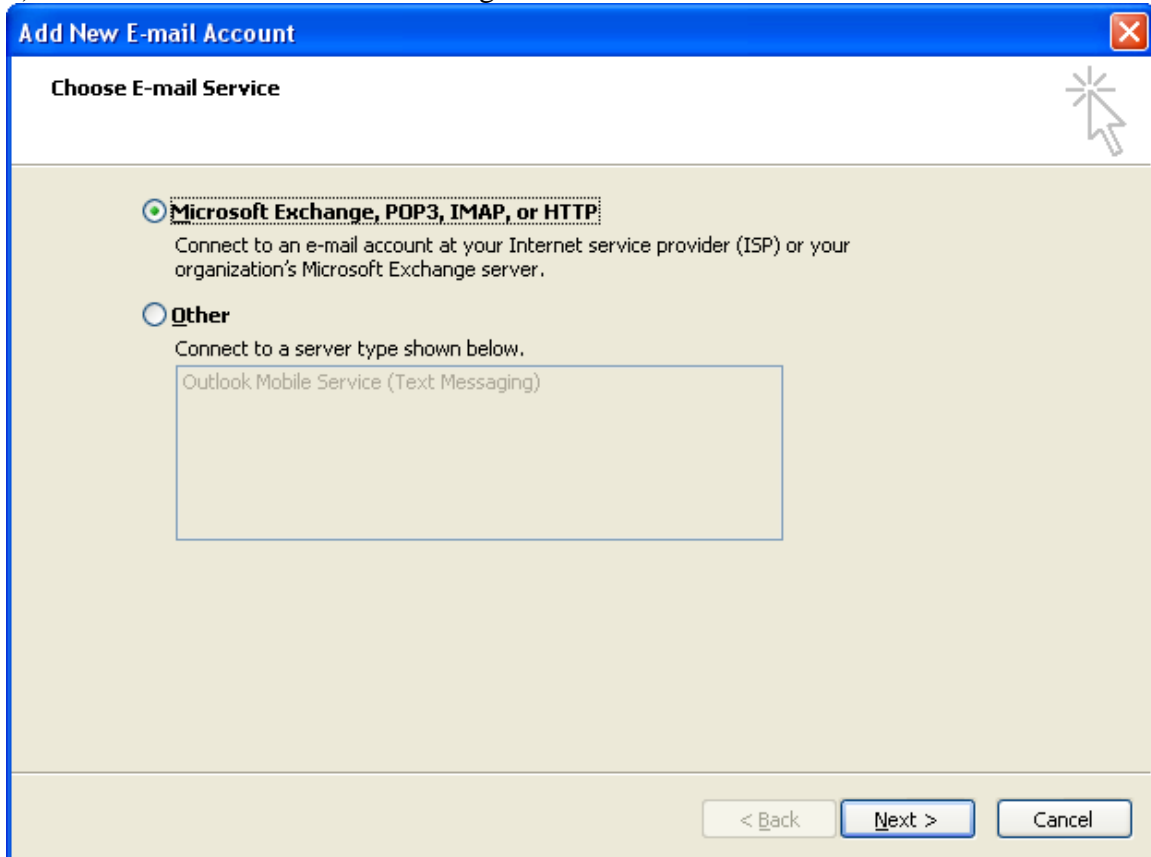

3) You should now be at a screen that looks like this. Click on 'E-mail Accounts'.

# Outlook 2007 POP Instructions For Faculty and Staff

---

4) Make sure that 'Microsoft Exchange' is selected and click next.

# Outlook 2007 POP Instructions For Faculty and Staff

---

5) Click manually configure then click next.

**Add New E-mail Account**

**Auto Account Setup**

Your Name:   
Example: Barbara Sankovic

E-mail Address:   
Example: barbara@contoso.com

Password:

Retype Password:   
Type the password your Internet service provider has given you.

Manually configure server settings or additional server types

< Back   Next >   Cancel

# Outlook 2007 POP Instructions For Faculty and Staff

---

6) Choose Internet Email then click next.

# Outlook 2007 POP Instructions For Faculty and Staff

---

7) On this screen fill in 'Your Name', 'E-mail Address', and 'User Name'. In the incoming mail servers text field enter 'webmail.bloomu.edu'. The Outgoing mail server(SMTP) needs to be 'webmail.bloomu.edu. It is recommended that you do not store your password for security reasons when using a shared computer. Click on 'More Settings...'

**Add New E-mail Account**

**Internet E-mail Settings**  
Each of these settings are required to get your e-mail account working.

**User Information**

Your Name:

E-mail Address:

**Server Information**

Account Type:

Incoming mail server:

Outgoing mail server (SMTP):

**Logon Information**

User Name:

Password:

Remember password

Require logon using Secure Password Authentication (SPA)

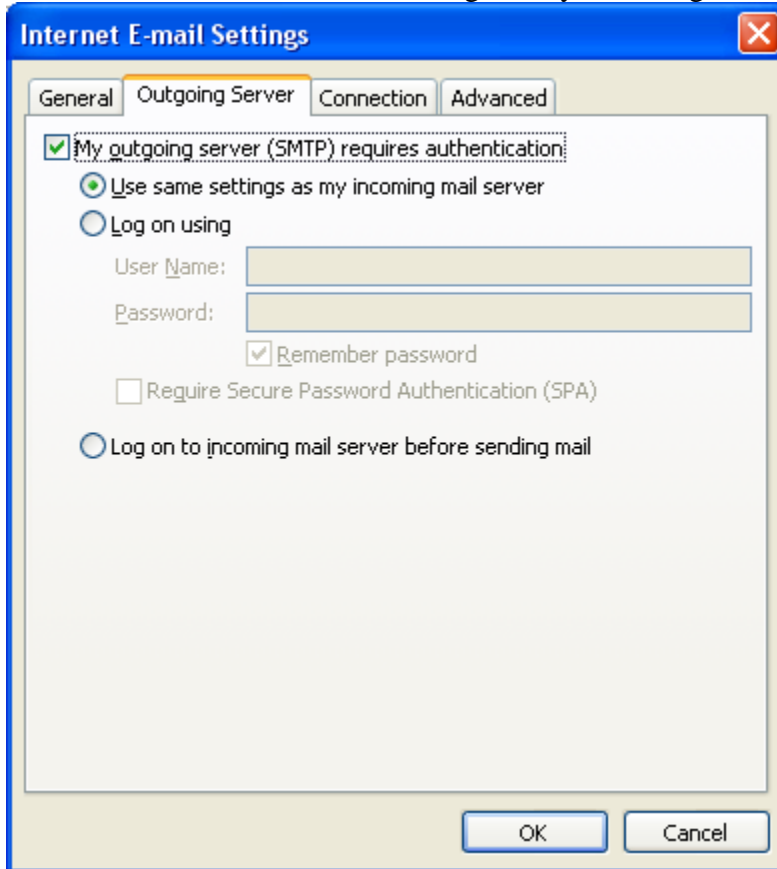

**Test Account Settings**

After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)

# Outlook 2007 POP Instructions For Faculty and Staff

---

7) Go to the 'Outgoing Server' tab and check 'my outgoing mail server (smtp) requires authentication' and 'use same settings as my incoming mail server'.

# Outlook 2007 POP Instructions For Faculty and Staff

---

8) Go to the 'Advanced tab' and select 'This server requires an encrypted connection (SSL)' under the Incoming and outgoing sever label. Change the 'Outgoing Server (SMTP)' port to 587, and verify that the 'Incoming Server POP3' port is 995.

The "Delivery" options are optional. If you do not check "Leave a copy of messages on server", they will **not** be available when you log into Outlook Web Access. It is recommended that you check it. (Note that this will **not** affect Mimosa, messages will be copied there regardless). Click ok then next then finish and finally close.

## **SPECIAL NOTE:**

If you use the POP setting to get your email the default setting is to REMOVE the email messages from the server when they are downloaded into your email client.

If you wish to use your email client in ADDITION to another means (the web, or Outlook on campus) to read your message you MUST place a check in the box next to "leave a copy of the message on the server" when you setup your mail client

If you are ONLY using your email client to get your messages this is not necessary.
