COMPUTER COURSES

For Older Adults: Computer Basics (B130A)

We'll start with the basics: learn how to turn on the computer and go from there. This is a hands-on, slower-paced class just for first-time computer users. You'll get an overview of basic computer terminology and safety, learn keyboard and mouse control, set up your own e-mail account, and search for information on the Internet. Join us in a relaxed atmosphere where all your questions are patiently answered and mistakes are expected. You'll have plenty of time to practice in the classroom, with the instructor right there to help!

Tuesdays from 9:00 AM to 12 PM / 4 Classes, March 31 - April 21, 2020 / Melinda Garrigan / $125

For Older Adults: What's that APP? (B135A)

When downloaded to your mobile phone or tablet device, APPS (Applications) make it more convenient to shop, travel, stay fit, and keep in touch with friends and family. Come discover some of the most useful APP's that will make your life easier and more enjoyable.

Tuesday from 9:00 AM to 12 PM / 1 Class, May 5, 2020 / Melinda Garrigan / $33

For Older Adults: Keeping Yourself Safe in a Digital World (B136A)

There's almost no limit to what you can do online. The Internet makes it possible to access information quickly, communicate around the world, shop for goods and services, and much more. Unfortunately, the Internet is also home to certain risks, and to stay safe, you'll need to understand these risks and learn how to avoid them. Join us in learning how to do just that!

Tuesday from 9:00 AM to 12 PM / 1 Class, May 19, 2020 / Melinda Garrigan / $33

Introduction to Excel 2016 (B167A)

Learn how to efficiently and effectively use Excel. Topics for this course include: spreadsheet terminology, exploring the Excel window, entering and editing text, basic formulas and functions, inserting rows and columns, page setup, autofill, and basic charts. This beginner course is designed for students who are new to using Excel or who would like to be more efficient. This class is taught using the Microsoft Windows operating system. Computer Repair & Maintenance Made Easy (B194A)

Viruses, errors, upgrades, and maintenance: your friendly neighborhood computer tech will help you learn about all of these. You'll learn techniques to remove or protect against viruses, spyware, and other malware. Computer hardware and Windows errors will be explained, and you'll learn how to repair them. Have you ever wanted to get your hands inside your computer and know what all those parts are? A variety of components and plugs will be shown so you can learn how to upgrade or repair the internals of your computer. The class will also delve into network setup and creation, internet connectivity issues, internet browsers, and a variety of computer myths and rumors. The instructor will provide information about a lot of useful tools that can keep your computer running clean, safe, and secure. Even if you consider yourself to be technology challenged, and you're afraid you won't understand the techno-babble, don't worry - our instructor uses easy-to-understand terms, and computer novices or beginners are always welcome.

Introduction to Voiceovers (S239A)

Are people always telling you that you have a great voice? Do you listen to audiobooks, commercials, or cartoon characters and think, "I could do that?" This fun introductory workshop covers the different types of voiceovers and the tools needed to be successful in the industry. You'll be coached as you perform a real voiceover script; you'll also be recorded so you can receive a professional voiceover evaluation later. Our course is taught by a professional voice actor from the Voice Acting Training Company, Voices For All.

Wednesday from 6:00 PM to 8:00 PM / 1 Class, April 22, 2020 / Voices For All / $65

Tarot For The Healing Heart (S256A)

This four-hour workshop will give you the basic skills you will need to begin a Tarot journey for self-discovery and healing. We will take the "woo-woo" and mystery out of the cards and give you practical information about using Tarot in everyday life and situations. How? We'll talk a little bit about the history of Tarot. Where did these cards originate from and what were they used for? We'll look at some historical as well as modern decks and talk about their artwork and symbolism. Then, we'll dive into learning how to read Tarot cards. You will walk away from this class with: Basic historical knowledge and artistic appreciation of Tarot; Handouts of basic card meanings and sample Tarot spreads. We will practice reading simple spreads, and you'll get handouts of simple spreads to practice at home.

Whether you want to use Tarot for yourself or use it for fun with others, this workshop is perfect for the Tarot newbie or beginner. Bring a deck of Rider-Waite Tarot cards (Available from Amazon would be helpful, but not necessary. I will have a couple extra decks available for class use.

**All Aspects of Gardening (S311A)**

Bring your questions! I am a big proponent of container gardening, with over 50 containers to keep watered. It's actually not a real big job. Shrubs and trees, some of which have been growing here 15 years and are attaining sizes that are impressive. I love to prune as opposed to trim to keep a natural structure to a plant. Trimmed or shaped shrubs are a no-no. Here we will promote color in gardens both with bulbs and perennials as well as perennials and be a witness to the 1,500 bulbs of tulips that were planted last fall. It means leaving void space in a landscape area. I love growing things that are unusual and unique. All these things I enjoy sharing with others. My gardening ideas make sense and more importantly demand less maintenance. Class will be held in Benton, PA.

- Saturday from 9:00 AM to 12 PM / 1 Class, May 2, 2020 / Edward Smith / $39 (Rain date May 3)

**Beginning Fly Tying (S395A)**

Off Grid Energy Systems I (S425A)

This course introduces homeowners and prospective homeowners to the principles of home energy conservation and off-grid energy production for the purposes of installing or competently hiring a contractor to install a system in their home to free them from dependence on the electrical grid. Students will learn how to estimate energy loads, employ conservation methods, and choose from among different generation methods. Furthermore, they will learn the electrical circuit principles necessary to construct a home energy system and the off-the-shelf components needed to make one work.

Thursdays from 6:30 PM to 9:00 PM / 4 Classes, May 14 - June 4, 2020 / Thomas Anderson / $95

Off Grid Energy Systems II (S426A)

Students will build a fully-functional portable solar generator which is a scale model of a residential off-grid energy system. In the process of creating a valuable product in its own right, participants will be applying concepts which can then be translated into a whole-house electrical generation, storage, and distribution system. We will then discuss sizing, cost estimation, and planning the installation of a full-scale system based on the experience of building the scale model. The finished solar generator (which the student will keep) is comparable to commercial products retailing for $800 or more, capable of powering laptops, CPAP machines, LCD televisions, LED/CFL lights, powered coolers, etc., charged from a solar panel or wall outlet source. Participants are expected to purchase their own wire cutter/crimper and screwdriver tools. No prior electrical or construction experience required. Pre-requisite: Off Grid Energy Systems I.

Registration deadline is May 15, 2020, There is a materials fee of $450 for solar generator components. Please provide a separate check payable to the instructor, Thomas Anderson, for the materials fee.

Th from 6:30 PM to 9:30 PM 4 Classes, June 18 - July 9, 2020 / Thomas Anderson / $115

Washington DC Cherry Blossom Time (T551A)

Cherry Blossom time in Washington DC! A day to enjoy the Smithsonian Institute, the American Indian Museum, the Holocaust Museum, memorials and enjoy the Cherry Blossoms in the Basin Area. Don't forget to put on your walking shoes! We'll drop you off at the Air & Space Museum, and the day is yours to spend as you please.

Wayside Signs, introduced in 2012, is a series of information- and photo-filled wayside signs which bring the gift of trees and the Festival to life, enhance the visitor experience and provide a self-directed guided tour. While strolling around the Tidal Basin and visiting other nearby locations, learn the history of the 1912 gift of 3,000 cherry trees from Mayor Jukio Ozaki of Tokyo to the city of Washington DC. See where the first trees were planted, how the trees are cared for, and read about the special involvement of the nation's first ladies and about different cherry tree species.

We cannot guarantee blossoms will be in full bloom but we do have reasonable expectations they will be open, depending on the weather. For more information you can visit www.nationalcherryblossomfestival.org to help plan your day. Cost includes transportation, and driver gratuity.

Registration deadline is February 25th. Saturday, April 11, 2020 / $89

If there is one thing Asian food is known for its the spiciness. Spicy and sweet, spicy and sour, spicy and more spicy. Whether you think you eat at a level 1 or extremely spicy at a level 10, come and join Angela as she takes each dish from level 1 to 10. In this class we will be featuring 3 dishes - first dish will be "Pad Thai", a popular Thai noodle stir fry, second dish will be "Kapong" a spicy Hmong chicken curry noodle soup, and the third dish will cool you off with "Nam Vang", a classic Vietnamese dessert. You will not leave hungry, and will take home with you Angela’s simple yet effective cooking techniques. Each dish is made step-by-step with follow-along pamphlets including, where to purchase ingredients and how to prep them. The atmosphere is relaxed, fun, and appropriate for all ages. Couples are encouraged to come.

A $20 fee is payable to the instructor to help cover the cost of the food.

Cheese Making 101 (J243A)

According to Wikipedia, cheese making dates back at least 5,000 years, supported by archaeological evidence of this craft in ancient Egyptian civilizations. We'll bring the skill up-to-date for beginners, by looking at how cheese is formed, how the home cheese maker can get started, and sanitary precautions. We'll make two or three types of cheese, including a farmhouse cheddar, cheese curds, and homemade mozzarella if time allows. Secondary to the main cheeses will be butter and ricotta cheese.

Bring a notebook and pen or pencil. A materials fee of $20 per person is payable to the instructor.

Saturday and Sunday. Day 1 – 9:00 AM to 2:00 PM. Day 2 – 9:00 AM to 12:00 PM / 2 Classes, March 14-15, 2020 / Don Beagle / $42

Cheese Making 102 (J247A)

This course will cover intermediate cheese making techniques. We'll make a Buttercase cheese, Gouda, Seasoned Curds, and perhaps an English-style cheddar or Brie. Different pressing techniques will be discussed and used, and you'll get ideas on how to build your own cheese press. Other discussion topics will include waxing and natural rinds, building your own cheese cave, and desirable molds for your cheese.

Cheesemaking 101 is recommended before taking this course.

A $15 fee is payable to the instructor.

Saturday and Sunday. Day 1 – 9:00 AM to 2:00 PM. Day 2 – 9:00 AM to 12:00 PM / 2 Classes, March 28-29, 2020 / Don Beagle / $42

Mozzarella & Provolone Cheese (J244A)

In this class we will be using cultures to make our mozzarella as well as a hot water bath to do our stretching. This type of mozzarella has deeper flavor than our 30 minute type. Our Provolone is a cultured type as well. This one needs to be aged for a while to develop its flavor and sharpness. This is also a hot water bath for stretching. We will discuss the similarities and differences as well.

Cheesemaking 101 is recommended but not required for this class.

There is a $15 supplies fee for this class.

Saturday from 9:00 AM to 3:00 PM / 1 Class, April 4, 2020 / Don Beagle / $42

I Want To Make Cheese Like That! (J249A)

This course will show you how to make a cheese without a recipe. Students will be able to bring a cheese that they like and find out how to break it down to its components and then develop a recipe to make a similar tasting cheese. Examples would be a Blue Cheese, Norwegian Styles, German Styles, English Styles, some French and Swiss. Students are asked not to bring exotic types to be used as cultures may not be available. The principals of the class can be used at home to try and make these types as we may not have enough time to properly develop them in class. Handouts will be used in this class to develop the recipes.

Pre-requisite: Cheese Making 101.

Saturdays. Day 1 – 9:00 AM to 2:00 PM. Day 2 – 9:00 AM to 12:00 PM / 2 Classes, May 2-9, 2020 / Don Beagle $42
