What-if Report Selection

Advisors may use the "what-if" scenario to produce degree audit reports based upon requirements for alternate programs of study or to select "what-if" courses in a student's current program of study.

For students admitted to the University prior to Fall 2009 the "what-if" scenario must be used to produce an audit. This will produce an audit in the student's current plan based upon Requirements for the Fall 2009 term by retaining the populated program and plan data and submitting the request. Additionally this component may be used to produce an audit on an alternate program of study by modifying the current data.

Please refer to your ISIS login page: http://www.biocmu.edu/isis/logon for complete instructions on the "what-if" degree audit report.

Click on CREATE NEW REPORT
The Create What-If Scenario page will display.

**NOTE:** The fields will populate with the students current:

1. Institution
2. Career
3. Catalog Year (REQUIREMENT TERM)
4. Academic Program
5. Area of Student (MAJOR)
6. Concentration (TRACK if applicable)

A. Use the drop down under Catalog Year to change a students requirement term and view the Academic Requirements in an updated version of the curriculum for the current major.
